

ADOLESCENT OUTPATIENT SUBSTANCE USE DISORDER RECOVERY PROGRAM

Your strength. Your journey. Let's climb together.

At Andrews Behavioral Health, we empower youth to overcome life's toughest challenges. Recovery isn't one-size-fits-all—your story is unique, and your journey matters. Whether you're just starting or finding your way back, help is here to guide and support you with understanding, care, and hope.

Support that meets you.

We know it's not always easy to talk about struggles, but our team creates a space where you can be real, feel safe, and grow stronger. Every step forward, no matter how small, is a step toward scaling the mountains in your path. Together, we'll help you build a bright, healthy future.

Intensive Adolescent Outpatient Program (AIOP)

- For youth ages 13–17 ready to rise toward recovery
- Six- month duration
- Weekly one-hour sessions on Tuesdays, 7–8:30 p.m.
- Individual counseling, family sessions, educational support
- Structured guidance, peer connections, and accountability
- Co-occurring disorder treatment with trauma-informed care

Take the next step—we'll be right there with you.
